More Information

Hiring Eric:

- ★ Quality music for your event - Fun, Affordable, Professional, Versatile.
- ★ A solo act is your entertainment solution - bands can be loud/costly; background music can be limiting. Your guests will thank you for skipping DJ and Karaoke.
- ★ Quality solo acts are rare, but I know the best in the region. If I can't cover your event, I will find someone who can.
- ★ Spread the word.

PARTY DO'S / DONT'S:

Cool

- Go down in company history as the one who planned that infamous party where everyone loosened up...**a lot**.
- Become the "back yard hero" of the neighborhood and show them what a real yard or block party sounds like.
- Create a place/space where the ladies can let their hair down.
- Demonstrate one guy can dance with six women at once.

NOT so cool:

- Hire your buddy's lousy garage band for your wife's birthday.
- Booze/buffet/iPods...anyone can do that.
- Think the drinking women won't eventually dance & sing?

- Think again and plan ahead with live music.
